IF YOU CAN PUSH THIS BUTTON ◉ YOU CAN TURN ON SUCCESS!

WE'LL PROVE IT TO YOU
THE 'V' GROOVING WAY!

APPLICATIONS
As limitless as your design imagination—Automatic's "V" Grooving Machines can be applied to an infinite number of products from any sheeted material or laminates Store fixture, case goods, wall units, drawers, kitchen cabinets and countertops, office, home and commercial furniture, electronic cabinets, computer stations and much more can be produced by these versatile machines

FEATURES
One-piece construction—including edges—eliminates edge banding, providing fully matching grain or pattern all around

FLEXIBLE
Edge thickness and shape can be selected and varied Plus the "V" Grooving Machines are equally suitable for custom or production set-ups

VERSATILE
Adapts to any sheeted material including solid wood, veneer, vinyl, high or low pressure laminates, melamine, paper, foam, plexiglass, as well as any angled products

SIMPLE
Employ unskilled labour for production and set-up.

ECONOMICAL
One hour daily use of the Automatic "V" Grooving Process to produce products previously made using conventional methods, allows for complete repayment of machinery in less than a year from labour savings alone

CENTERLESS GRINDING

45 BATHURST ST. WATERLOO
ONTARIO N2V 1N2
519-884-0322
FAX 519-884-4887

ALL WORKS DONE PRECISELY TO OUR CUSTOMERS NEEDS **SINCE 1944**
HIGHEST QUALITY — Through Computer Production Systems and Modular Gauging
CUSTOM DRILLING — Pneumatic and Conventional
MILLING — J16 and Fixtures for Multiple Pieces of Conventional Power and Handling
STATE OF THE ART — NC and CNC Systems Close Tolerance Turning, Drilling and Milling, Auto Honing, Auto Internal Grinding
PRECISION GRINDING — Centreless, Infeed, Thrufeed, Barfeed
Internal up to 3″ Dia., Cylinder up to 2″ x 18″ long
Surface Grind 6″ x 16″ Table
Centreless Ground Bars from 1/32 to 8″ Dia. and to 24′ Long
CLOSE TOLERANCE — Producers of Tool Makers' Dowels Odco Products

chemacryl Plastics Limited
Injection Molding and Extrusion Compounds

The Chemacryl family of acrylic and modified Acrylic Molding Compounds offer the processor, design engineer or end user distinct alternatives suited to specific injection molding or extrusion applications.

360 Carlingview Dr., Rexdale, Ontario M9W 5X9
Phone: 416-675-9433 Fax: 416-675-4659

Acrylite® ACRYLIC SHEET
MOLDING COMPOUNDS
Glass-like clarity and sparkle with outstanding water resistance.

XT® Polymer
MOLDING AND EXTRUSION COMPOUNDS
Provide added toughness and impact strength along with good transparency.

CYROLITE®
MOLDING COMPOUNDS
Combine toughness and chemical resistance with excellent transparency and colour.

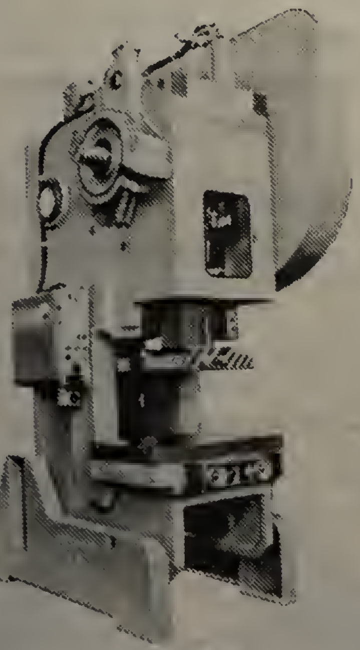
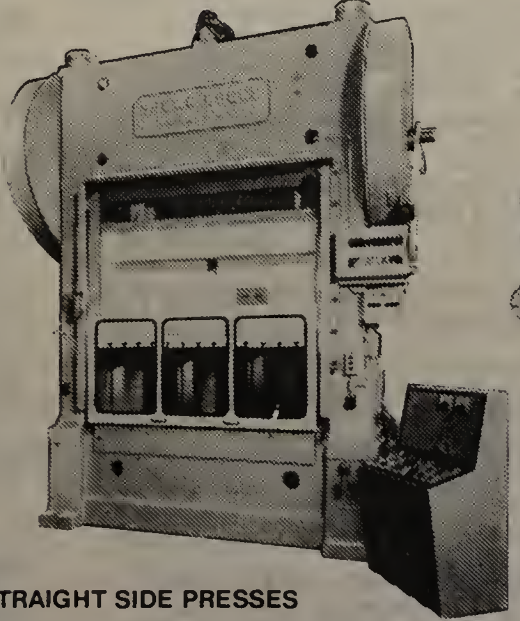
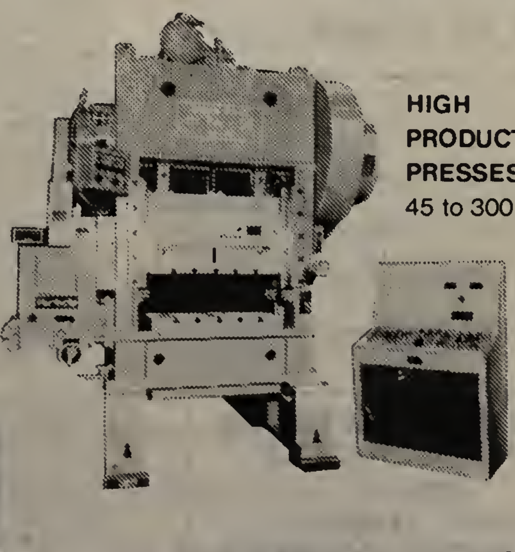
BROWN BOGGS PRESSES



OBI PRESSES
20 to 200 tons



STRAIGHT SIDE PRESSES
DOUBLE CRANK 100 to 800 tons
SINGLE CRANK 100 to 1,000 tons
STEEL STRAIGHT SIDE 40 to 150 tons



HIGH PRODUCTION PRESSES
45 to 300 tons

BROWN BOGGS EXCEL IN PRESS DESIGN AND APPLICATION

Take one of our standard presses. We'll adapt it to meet your production needs or we can build a press to your specifications. You get the benefit of over 95 years experience in building precision stamping presses.

Discuss your requirements with one of our press specialists. He probably has the press you want in stock.

CANADIAN TRADE INDEX

This authoritative directory gives a profile of Canadian companies and their products that is second to none. Over 9,500 copies were used by buyers to source Canadian-made products — more than 2000 copies by foreign buyers.

Locate accurate business information with ease and speed in the eight sections of this 1200-page volume.

If this in not your personal copy of the INDEX, complete the order card inside the back cover.

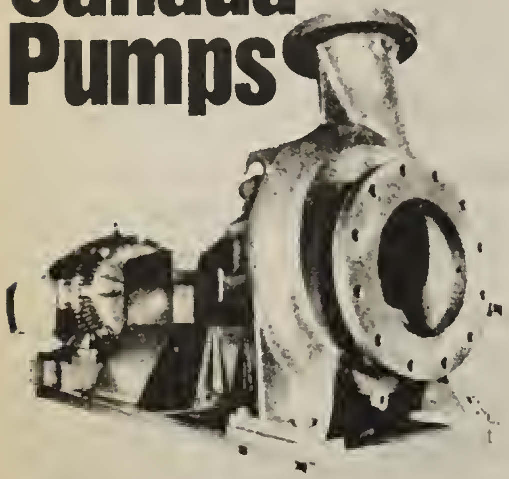
CANADIAN BLOWER CANADA PUMPS LIMITED,
Kitchener, Ont. 519-744-B111.

Canada Pumps



. . .rugged, efficient centrifugals for every industrial liquid-moving use

We manufacture paper stock, standard dimension chemical, sump pumps as well as general purpose pumps. They are available in a complete range of sizes, capacities and designs. Construction materials to handle hot, cold, corrosive or abrasive-laden liquids and slurries are available. Our single or multi-stage models are precision-engineered to assure efficient, longer service life.

All weighs

Any way you want to weigh, you can always count on Toledo for the right scale. From gold electrical contacts to rail cars loaded with molten metal — all are weighed on Toledo industrial scales. From low-capacity stand-alone electronic bench scales to integrated factory systems — all are available at Toledo Scale.

Find out all about the complete line of Toledo industrial scales.

To receive a copy of the Scales for Industry brochure, please contact Toledo Scale, Division of Reliance Electric, 5220 Creekbank Road, Mississauga, Ontario L4W 1X1 or call (416) 625-8112.

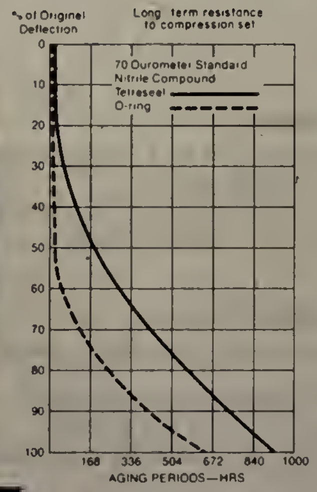
ARE YOUR SEALS BEING SQUEEZED, NIBBLED, AND DEGRADED?

Seals can fail for a lot of reasons. Stress caused by squeeze. Extrusion and nibbling caused by pressure. Permanent deformation due to material degradation.

Fortunately, you can prolong seal life—and save money—by using Goshen Rubber lathe-cut Tetraseals.® Tests show that Tetraseals perform better than O-rings under stress and can withstand pressures at least 25 percent higher.

Don't sit still for seal abuse. Call or write for your personal copy of the Manual of Tetraseal Design.

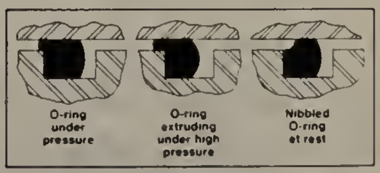


GOSHEN RUBBER

Goshen Rubber of Canada, LTD
100 Stafford Drive
Brampton, Ontario L6W 1L4
(416) 457-5843

Tetraseals provide excellent resistance to compression set caused by material degradation.

When pressure exceeds the seal's capacity to bridge the gap, extrusion and nibbling result. Tetraseals can withstand pressures at least 25 percent higher than O-rings.



The Tetraseal deforms less under squeeze, minimizing internal stresses and lessening the tendency for the material to age prematurely.

3-L mist-eliminators and oil-water separators are available in all capacities as fine as 5-PPM.

Process water, non-pressurized oil separators, large volume capacity with special instrumentation controls for full automatic operation made by 3-L as a turnkey operation.

The 3-L biogas separator has the highest efficiency in processing the biogas for industrial use or burnoff. There are no moving parts, no cartridges to be replaced.

The 3-L wet and dry cyclone is designed in all capacities and has efficiencies as fine as 99.8% for 5-micron solid removal from hydrocarbon liquids, steam, air and water.

Springs, Custom

Wallace Barnes produces thousands of different kinds of springs . . . in small or large lots. We can work from your drawings or a sample part you provide. Or our engineers can help you design a part or bring their years of springmaking experience to your designers. Just call (416) 335-6686 and ask for the Customer Service Manager.

For prototype or limited production runs, ask for our Special Order Department. They specialize in fast quotes and deliveries.

We also offer our line of SPEC· Stock Springs and Spring Washer conveniently listed and priced in our SPEC Catalogue. Ask for your Free copy. We have a 2 million piece inventory on the shelf for immediate delivery.

If you need hot wound springs, we coil them with bar stock from ½" to 2".

For any part made of spring steel; for small critical metal parts from any metal; for 4-slide parts; for assemblies; for wire formings in any size and shape, Wallace Barnes can meet your requirements.

For all your critical metal parts needs, call Associated Spring, The Wallace Barnes Co., Ltd. (416) 335-6688. Or write 3100 Mainway, Burlington, Ont. L7M 1A3.

SPEC® Springs and Washers
SPEC Stock Springs and Washers save time, save money. No drawings, blueprints or tooling costs. Just write for catalogues and price sheets on compression, extension and torsion springs; plus belleville, wave, finger, and curved spring washers. Then pick the specs that fit your need and order by catalogue number. Assured repeatability.

WHETHER YOU BUY FROM
OR SELL TO
CANADIAN MANUFACTURERS —
USE THE CANADIAN TRADE INDEX
UPDATED EVERY YEAR WITH OVER 84,000 CHANGES
- WHO MAKES THAT PRODUCT?
- ARE THEY INTERESTED IN EXPORT SALES?
- WHERE ARE THEY?
- WHO ELSE MAKES IT?
- WHAT IS THEIR ADDRESS?

CANADIAN TRADE INDEX
One Yonge St., Suite 1400,
Toronto, Ontario. M5E 1J9

Whenever price, quality, design, and service allow a choice, BUY CANADIAN. Canadian manufactured goods are recognized the world over for their quality and workmanship.

You are using the INDEX to find Canadian-made products - your customers use it too. You should be advertising under all classifications that list your products.

ADVERTISERS help to make this directory possible. CONSULT THEM.

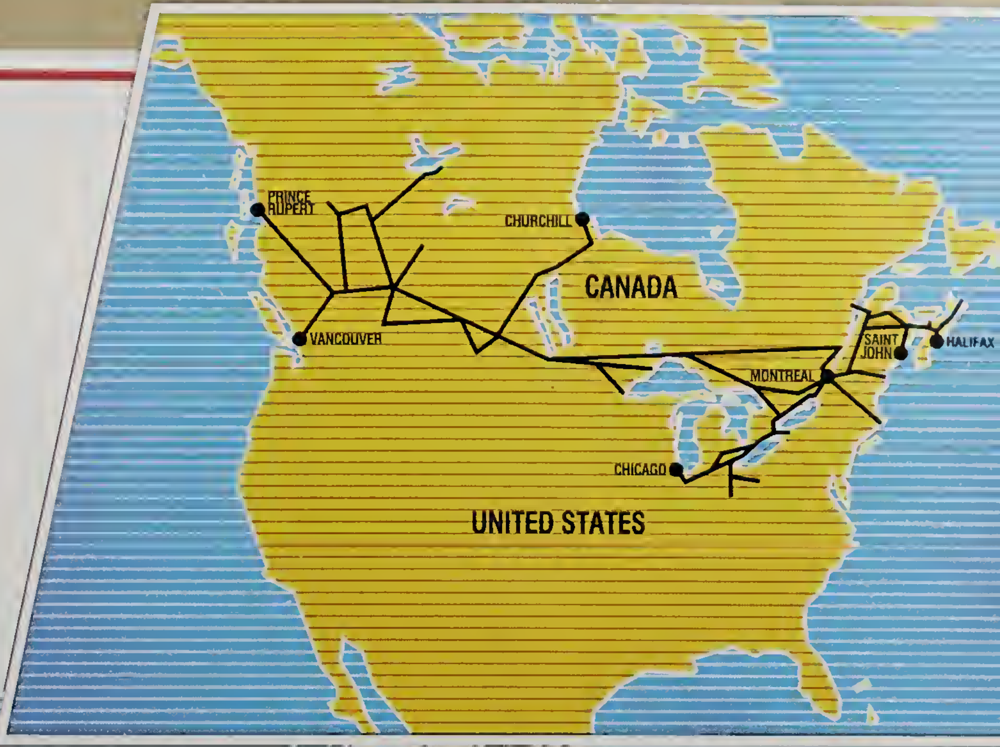
The CN Commitment:

> *“Only Canadian National has the flexibility and network to serve all Canadian ports directly, and an integrated, efficient system of intermodal terminals across Canada, including Railport in Chicago serving the U.S. midwest—convenient, one-company shipping for all of Canada.”*

Don Poirier
General Sales Manager
Overseas Markets



Flexible, efficient distribution via Canadian ports.

Shipping your goods to or from Canada via Canadian National Railways makes a lot of sense. For a lot of reasons.

CN serves every major Canadian port with direct ship-to-rail service—Prince Rupert, Vancouver, Halifax, Saint John and Montreal, and an integrated efficient network of intermodal terminals across Canada.

Through east and west coast Canadian ports, we provide dedicated daily and reliable container train service, speeding your shipments to or from key central markets.

In the east, CN's Laser service operates daily between Moncton and Chicago—a dedicated intermodal system for containers and trailers, with near-perfect on-time performance to the U.S. industrial heartland. Our excellent connections with major U.S. railroads, combined with easy customs clearances, mean more dependable delivery to your markets.

In the west, we operate destination trains with specialized equipment out of Vancouver, and serve a wide variety of specialized terminals that ensure proper and prompt handling.

Shipment tracing is a simple, fast procedure with CN's world-renowned, sophisticated computer system, accessible through TELEX worldwide, as well as TWX in the U.S. We also provide computer systems for management information and container inventory control.

When it comes to getting your shipments in or out of North America, we're committed to giving you the edge with flexible, cost-efficient one-company service. Put us to the test soon.

CN
Responding to the Challenge

CN international offices include: Tokyo, Hong Kong, Vancouver, Montreal, Halifax, San Francisco, Chicago, New York, London, Liverpool, Hamburg, Antwerp, Paris, as well as agencies throughout the world.

We'd like to talk to you about managing energy. It's possible your bottom line could benefit from improved energy efficiency.

We would start by getting a better picture of how you're using energy. That could be done through process monitoring. You could substantially increase energy efficiency by monitoring where and how you're using energy. That wasted energy easily converts to rescued dollars.

Then, we'll explain how different rate structures apply so that you get the most for your energy dollar. And we'll help you determine which energy system works best for your operation. If you're planning expansion, you can keep energy costs down by adjusting your energy schedule. That's the kind of news we know you like to hear.

Whether you're in mining, pulp and paper, lumber, apartment construction, manufacturing or distribution, our energy managers can give you objective insight into energy efficiency. They're well-equipped to deal with your energy applications.

Ontario Hydro is committed to making energy efficiency a reality in your business. We want to help you benefit from better energy applications. You can count on your Enermark member to be responsive to your energy needs.

Ask us how you can manage energy more efficiently. It could reflect nicely in your bottom line.
